

Supporting Tower Builds Across the Country

In our world of constant changing technology, rigid timelines are often a necessity when planning and building network infrastructure. Graybar Canada will work with you to provide you with solutions and products from leading manufacturers to complete your project successfully and on time.

Whether you are expanding or developing new infrastructure for broadband or cellular networks, we will help you stay ahead of the curve and satisfy your customers' changing needs, so you can focus on managing your business.

From equipment for Backhaul to DC Power and everything in between, Graybar Canada has what you need.

You can depend on Graybar Canada for:

- 24-Hour emergency services: 24-Hour emergency access to inventories at each of the 28 Canadian stocking locations.
- Dependable shipping and delivery and custom delivery: Availability of drop shipments and delivery of products to contractor docks, job sites and remote containers.
- Product staging and kitting: Graybar Canada manages layout of material and packaging of products from multiple vendors for job and site-related coordinated deliveries.
- Inventory management: Graybar Canada offers migrating inventory levels and locations across the country as the project rolls out.
- Project management: Graybar Canada coordinates material supply and tracking with contractor's PMO.
- Dedicated and skilled staff including solutions specialists.
- On-site customer training facilities: Many branches offer customer training to keep customers up-to-date on new technology, products and improved methods.

Product Offerings

- ◆ Antennae
- ◆ Anchors and Poleline
- ◆ Grounding
- ◆ Fasteners
- ◆ Coax & Comms Wire & Cable
- ◆ Enclosures
- ◆ Racks and Cabinets
- ◆ Tools and Test
- ◆ Cable Tray and Ladder
- ◆ Transformers
- ◆ DC Power
- ◆ AC Power
- ◆ Power Wire & Cable
- ◆ Lugs and Crimpers
- ◆ Fibre Optic Connectivity
- ◆ Security
- ◆ Remote Site Management
- ◆ DS0, 1, 3 Cross Connects
- ◆ Multiplexers
- ◆ Backhaul
- ◆ Consumables
- ◆ Commercial Lighting

Graybar Canada uses products from leading manufacturers to provide customers with solutions they are looking for. We have access to our products, including specialized network infrastructure products, from any of our 28 stocking locations across Canada.

EZ GROUND™

From the top of the tower to the ground, Thomas & Betts offers a complete line of bonding and grounding equipments for cellular sites:

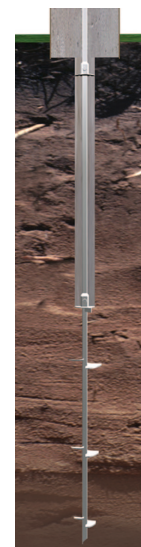

- Mechanical and Compression Connectors
- Exothermic Welds
- Ground Rods

Thomas & Betts products comply with all the industry standards.

POWER SYSTEMS

Nothing speeds you to market faster than Hubbell Power Systems' all-steel helical piles and guy anchors. Installing torque indicates capacity. Loads may be applied immediately without excavation or concrete. For up to 400 kips per pile in poor soil conditions, the patented HELICAL PULLDOWN[®] Micropile combines a central steel helical shaft below a grout column surrounding the upper shaft. For more information, visit hubbelpowersystems.com

A Pentair Company

Hoffman Enclosure Solutions – With over 60 years of experience, count on Hoffman for more standard and custom enclosure solutions than any other. Whether for environmental, thermal, electro-magnetic, or seismic, Hoffman can protect your advantage.

ADC is a leading supplier of connectivity products to many GSM, 3G and soon-to-be LTE network operators worldwide. ADC provides flexible infrastructure solutions that wireless operators count on to build or migrate cell site installations to high capacity backhaul networks. ADC understands wireless and has launched a new suite of products to help satisfy the growing user demand for improved coverage, and thirst for increased bandwidth.
