

FLUKE®

Hands-On Motors and Drives Seminar

Learn how to troubleshoot faster and avoid downtime using
the latest measurement technology and test tools

8:00 am - 12:00 pm

Registration Fee: \$220.00

Lunch is provided AND each participant will receive a Fluke 373 Clamp-On Meter!

Who should attend:

- Maintenance technicians
- Electro-mechanical technicians
- Electricians

What you will learn:

- Understand a range of measurements and tools that can be used to isolate possible causes of failure, in a three-phase motor drive system
- Understand specific measurement techniques and test tool applications to isolate fault conditions
- Reduce downtime by improving troubleshooting practices

What is included:

- Motor and drive basics, measurement principles and results interpretation
- Hands-on instruction with a Fluke product specialist
- Insight into real-world applications and examples
- Introduction to Motors and Drives Principles booklet
- Chance to win Fluke raffle items
- Completion certificate
