Induction Lighting

Induction lighting is now being recognized as a truly long life lamp with real world energy saving potentials higher than LED. It is 50% more efficient than CFL's, and cuts energy usage of traditional lamps like mercury vapor and high pressure sodium by half or more. Its tested lifespan of over 60,000 hours makes it a reliable solution for hard-to-maintain areas. Electromagnetic transformers, consisting of ferrite rings with metal coils, create an electromagnetic field around a gas-filled tube, using a high frequency that is generated by an electronic ballast. Available in most fixture styles including Wall-packs and Cobra heads.

Klein Tools D503-10 Pipe-Wrench Pliers, Heavy-Duty, 10"

- 90° angled jaws provide 20% more leverage than 32° angled jaws.
- Secure tongue and groove design for non-slip grip – even with heavy pressure.
- Handle stop eliminates pinched fingers.

WIRELESS INSPECTION CAMERA

Let the ECG® Wireless Inspection Camera with removable LCD Monitor be your eyes and hands while you look inside walls without tearing them apart, search behind appliances and other difficult places for lost items and hundreds of other uses. Allows for easy visual inspections in hard to reach places. Lightweight, handheld design with flexible shaft and useful accessories. Now available in both the original Standard Version and a new Deluxe Version. Extensions are also available for even harder to reach places.

January Riddle: What grows up while growing down?

Predictive Maintenance Technologies: Such as *Thermography*, *Ultrasonic Detectors*, and *Integrated Process Control* evaluate the condition of equipment by performing equipment condition monitoring while the equipment is in use. The ultimate goal of Predictive Maintenance is to warn about future problems or

failures in essential operating equipment so maintenance can be performed at a scheduled point during down times or when the maintenance activity is most cost-effective and before the equipment loses performance within a threshold.

Company Wide Stock of:

- Variable Frequency Drives
- Programmable Logic controllers
- Soft Starts
- Motor Starters
- Nema 4X enclosures
- Terminal Blocks
- Lighting Contactors
