- Runs on 3 C Batteries

Don't Forget the Batteries »

Get more out of it by getting more into it.

The new scalable enclosure solution.

FUSION G7™ is the global enclosure platform that offers scalable, multi-surface component mounting via a versatile internal grid system. FUSION G7 maximizes configuration flexibility while maintaining global IP66 and UL/CSA Type 4/12 ratings. Includes standard back panel and gland plate(s) for easy cable entry configuration. It's the one enclosure that won't box you in.

- A) Full & half-height side/back panels
- B) Front/rear vertical mounting rails
- C) Side mounting & DIN rails
- D) Wall-mount provisions
- E) Easily reversible hinges and door
- F) Gland plate(s) standard
- G) Floor-mount plinth base option

PROTECTING YOUR ADVANTAGE

A PENTAIR COMPANY

FUSION G7 is available in 30 standard metric sizes ranging from 300 x 300 x 225 mm (11.8" x 11.8" x 8.9") to 1500 x 900 x 425 mm (59" x 35.4" x 16.7")

KONFTEL

KONFTEL 300w

- Wireless DECT base station 6.0, GAP compatible
- Rechargeable battery. > 60h talk-time
- OmniSound 2.0 with Wideband
- Connect and combine connections (DECT, mobile, USB for VoIP)
- Konftel charging cradle included
- Record your meetings on SD memory card
- Future proof with upgradable software
- The conference guide makes calls easier
- Extra batteries and dual charging cradle optional
- Mobile cables as optional

Jabra

Jabra BIZ 620 USB

- Value-packed professional corded headset solution for Unified Communications
- Plug-and-play with Microsoft® Lync™ 2010
- VoIP in full wideband quality for clearer calls
- Answer/end calls and adjust volume directly from the headset
- Enhance productivity by leaving your hands free to use your PC
- Noise canceling microphone eliminates background noise
- Enhanced durability

Introducing a **New**

5 Second rule

**Fool-proof Termination
in Three Simple Steps...
Now That's Brilliance!**

Belden FiberExpress® Brilliance® Field-installable Connectors make fiber terminations really fast, simple and reliable. Brilliant in their design and implementation, they are the only fiber optic connectors in the marketplace to offer reliable terminations in less than five seconds – with **NO** termination tools needed!

Save time, labor and money:

- Splice and crimp takes place in one easy step – reducing the number of termination steps by 50%
- The connector can be re-terminated up to five times, virtually eliminating connector waste
- The connector's window enables 100% installation feedback, instantly, when using a Visual Fault Locator (VFL)

- There are no specialized tools to purchase, making the transition to this new technology incredibly easy

For more information, call Graybar today at 1.800.GRAYBAR (1.800.472.9227) or visit www.graybarcanada.com

Eaton UPSs. More power, less space.

Powerware series UPSs.
Minimizing rack space, maximizing power output.

- The ideal solution for high power density applications
- Power outputs up to 10 kVA
- Rack sizes starting from only 2U
- Less energy consumption and heat generation

AT-8100s Series

AT-8100S/24 and AT-8100S/24POE switches offer 24 10/100TX ports, two Gigabit combo ports, plus two integrated dedicated stacking connectors that deliver a total of 10Gbps stacking bandwidth to each switch.

The AT-8100S/48 and AT-8100S/48POE switches offer 48

10/100TX ports, two Gigabit combo ports, plus two integrated dedicated stacking connectors that deliver a total of 10Gbps stacking bandwidth to each switch.

Power over Ethernet PoE models provide standards-based IEEE 802.3at (30W) Power over Ethernet. PoE+ provides greater

power for applications – such as IP surveillance cameras supporting pan, tilt and zoom, IP video phones, RFID readers or wireless access points – while maintaining backward compatibility with IEEE 802.3af.
