Get TechReady with

Graybar Canada is a proud sponsor of the TechReady program.

The Graybar Canada Standard TechReady Kit is complete with all the parts for a typical TechReady installation. Hubbell Canada LP, one of Graybar Canada's trusted partners and a certified TechReady manufacturer, is the key provider of components that make up the kit. For detailed information on specific components visit www.hubbell-wiring.com/htm/ResiWiring.htm

Graybar Canada makes it fast and easy for installers to order what they need with just one part number for the entire kit! Just ask for the Standard TechReady Kit (part number TECKREADYSTDKIT) and you will be set for installation.
