Technical Training Course

Designing IP Video Surveillance Systems

Tuesday, March 17 - Calgary, AB

Thursday, March 19 - Edmonton, AB

Offered by
Graybar Canada

Agenda

Designing IP Video Surveillance Systems

Tuesday, March 17, 9:00am - 3:00pm - Calgary, AB
Maximum 20 participants

Thursday, March 19, 9:00am - 3:00pm - Edmonton, AB
Maximum 18 participants

Time	Agenda Item
9:00am	Introduction
9:35	Modern Applications of IP Video Systems & Video Compression Overview
9:55	IP Camera Basics
10:15	Camera Types
10:45	Break
10:55	Camera Labs, Part 1
12:00pm	Lunch Break
12:30	Camera Labs, Part 2
1:20	Strategies for Lighting
1:30	Strategies for Housing
1:45	Strategies for Transmission
2:00	Strategies for Power
2:10	Wrapup, Q&A
2:30	Adjourn

Graybar Canada is looking forward to welcoming you!

Course Description

This instructor-led course shows how to properly design a video surveillance system that includes IP Cameras, connectivity and protection. The course will be a combination of Powerpoint and lab exercises using real network switches and IP cameras. Learn how to define the best solution that takes into account Weather, Power and transmission techniques with multiple options. Students will learn the variety of camera types and their application, including PTZ, Panoramic and Thermal cameras.

Target Audience

This course is intended for system engineers, technicians, estimators, consultants or those who will be installing and configuring IP Camera systems.

Pre-requisites

Basic familiarity with IP cameras and network concepts are important for participants as the lab activities require the students to connect to an IP camera using their laptop.

Delivery and Material

Course materials include presentation slides delivered by an instructor in a classroom session. A copy of the course material, required lab software and all supporting documentation will be provided to each attendee.

- One **FREE** camera will be provided to each company that attends
- Discounts available for companies sending more than one employee with a maximum of three employees per company

The Instructor

Led by a Certified Pelco Trainer.

To Register

Register to enroll at training.pelco.com

The course fee is \$235.00 USD

General Terms and Conditions

The course fee does not include participant's costs for arrival and departure, hotel or any other additional costs. We will send you a written confirmation of your reservation and the invoice once you have registered.

We reserve the right to cancel the training three to four working days before the start date if the minimum number of participants has not been reached (fees paid will be refunded).
